-----------------------------------	--

Phone: 805-934-2752	Email: garcinstockdogs@hotmail.com
----------------------------	---

Garcin Stock dogs guarantees their Mcnab Border collie breeding program against genetic physical faults. Such as: early onset of Hip dysplasia, OCD, Collie eye or any of the related genetic disorders that can occur in all breeds of dogs.

Excluded: would be the onset of ephysitis disorder, and other related disorders that can occur from excessive strenuous work out and high energy supplement feed, increasing a rapid growth rate that can lead to angular limb deformities.

Diagnosis of canine must be established by two unaffiliated Veterinary practices and mutual agreement made of prognosis, and that it occurred genetically and not by injury, and no later than five years of age, from said canine's date of birth.

- Medical cost for diagnosis will be the sole responsibility of the canine's owner and breeder is not responsible for any medical expenses incurred.
- In the event of a positive diagnosis. The breeder shall replace the said canine with another canine puppy within one year of final agreement of the diagnosis.
